COMMERCIAL GRADE INSULATED TARPS

Western Rugged's insulated tarps are light weight and flexible in order to remain pliable in cold weather, while still offering significant insulation.

Ideal as a concrete curing blanket, winter storage of temperature sensitive equipment and material for seasonal construction.

Moisture Resistant:

Fabricated with closed cell PE foam insulation which does not absorb water and therefore the R-value is maintained in damp and cold conditions. Can be used for concrete curing and ground thaw.

Lightweight and Flexible:

The use of closed cell foam provides a lightweight, compact blanket.

Durable:

The closed cell foam insulation will not sag. Waterproof woven poly fabric shell ensures long life and durability.

Specifications:

Brass eyelet every 2 feet, PE closed cell insulation, 3/16"

PRODUCT FEATURES

- * PE closed cell insulation
- * Welded, rope reinforced hem
- * Brass eyelet every 2' ft
- * R value 1 on 3/16"
- * UV treated
- * Mould + Mildew resistant

TERMS & CONDITIONS

New Accounts : Customers who have not been approved for credit must prepay prior to shipment. In order to receive terms customer must complete standard credit application and upon approval will be eligible for 30 days net terms from date of invoice. ***Past due accounts are subject to a 1% per month service charge.***

Delinquent Accounts : Any accounts outstanding over 45 days will be put on "hold" status and will not be shipped further product.

Freight : Prepaid amounts may vary from region to region. Please check with Western Rugged to establish whether prepaid service is available for your area and if so what the prepaid requirements are. Western Rugged will pick and ship orders within 2 business days or less. Western Rugged insures all prepaid shipments from theft or damage to the customer's door. Customer is responsible for insuring shipments in transit for FOB shipments.

Shipping Discrepancies & Damaged Product : Customer is responsible for reporting shipping discrepancies and / or product damaged in transit within 2 business days of receiving product. All discrepancies should be reported by fax or email to Western Rugged. Any discrepancies or damage not reported within this timeline may be refused.

Pricing : Western Rugged pricing is reviewed twice per year. Western Rugged reserves the right to change prices at any time and without notice, however will only do so in case of extreme price volatility.

Standard Packaging : Western Rugged will accomodate orders in less than bale or case quantities, however we strongly suggest ordering in bale or case quantities to reduce the risk of damaging packaging and shrinkage. Orders with product quantities within 25% of case quantities may be increased to full case quantities at Western Rugged's discretion.

Fill Rates : Western Rugged strives to maintain a fill rate greater than 95% for its customers. Spikes in demand or delays in shipping can result in lower fill rates, however Western Rugged is committed to doing our utmost to maintain 95% or greater fill rates. All backorders are logged and reviewed with customers prior to shipment. Western Rugged does not cover freight on backorders unless prepaid level is attained.

Warranty : Western Rugged canopies are guaranteed to be free from defect at time of purchase. Western Rugged offers a 30 day window for canopy returns for any reason. In order to have your canopy return processed inform Western Rugged of the reason for return along with invoice number and date of purchase from Western Rugged. Western Rugged will either pick up the defective canopy within 90 days or issue a destroy in the field authorization. Upon receipt of the canopy to our warehouse or upon receipt of the destroy in filed authorization and photos, you will be issued a credit to be applied to future invoices.

Western Rugged's liability is limited to the value of the canopy only.
